

CB South Paving and Funding Survey Results

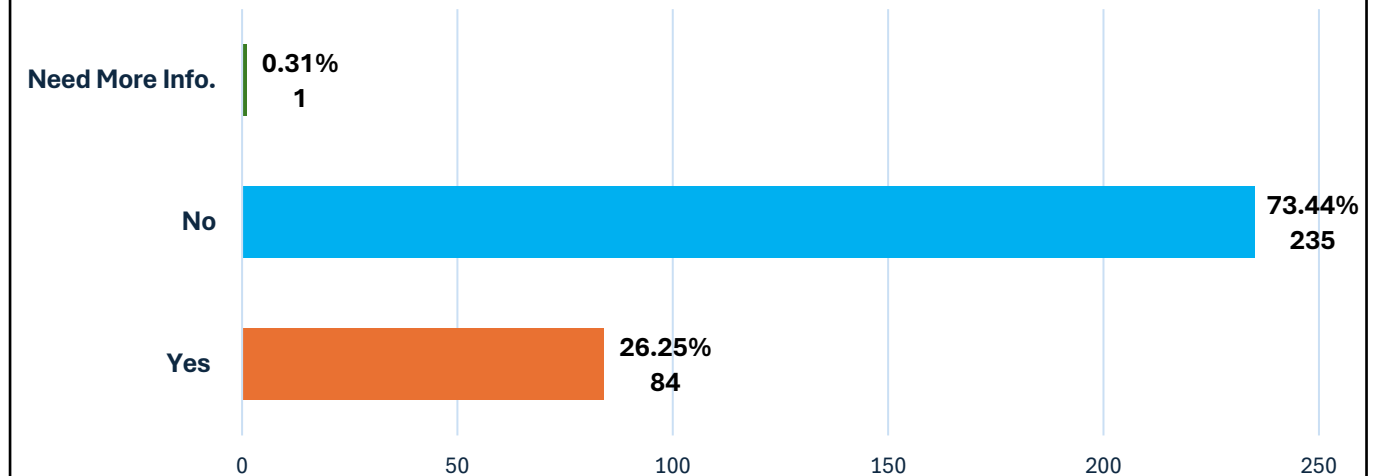

The District has provided a summary of all survey responses as well as filtered responses based on if you currently live on a paved road or not. The results illustrate that regardless of living on a paved road or not, there is not an abundance of support for new pavement on all unpaved roads and improvements to existing paved roads by increasing fees approximately \$800.00 more per year.

Cummulative Survey Responses

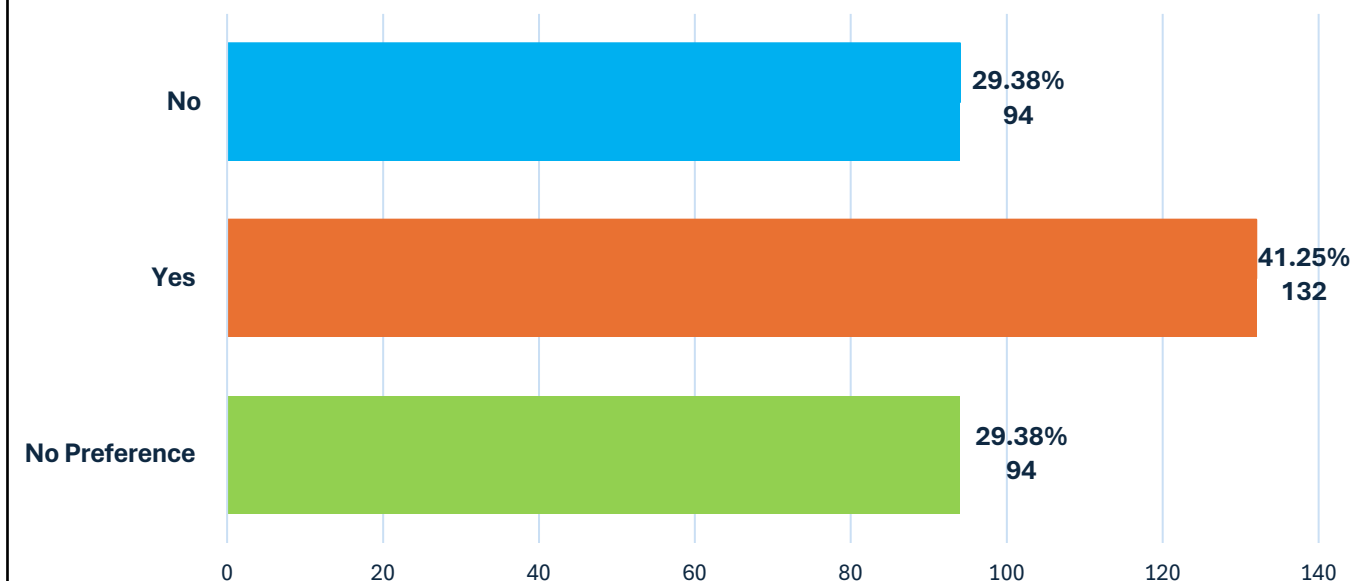

Do you currently live on a paved Road?

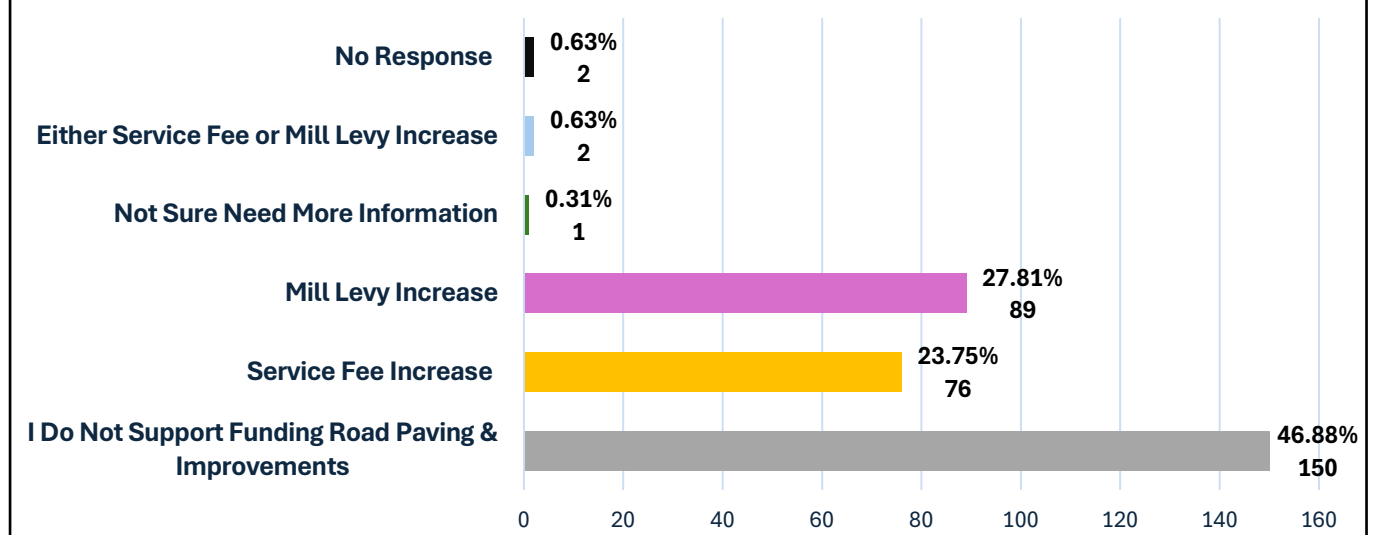

Would you support new pavement on all unpaved roads AND improvements on existing paved roads by increasing your fees approximately \$800.00 more a year?

Would you like all CB South roads within District boundaries to be paved?

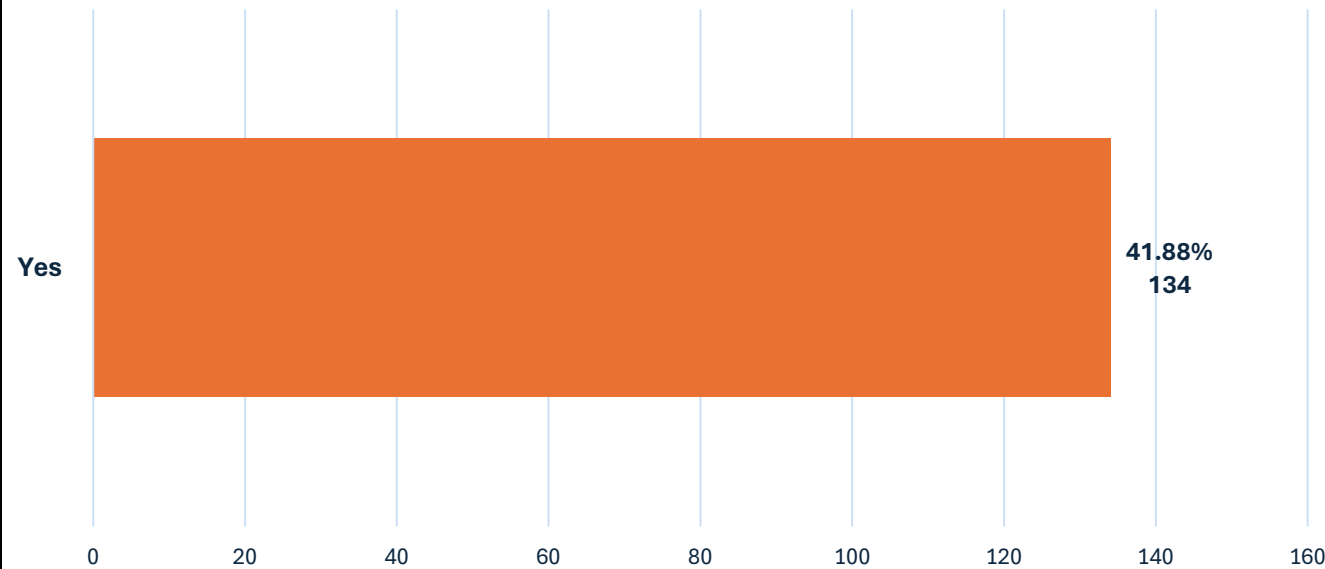

Would you support funding road paving and improvements through a service fee or mill levy increase?

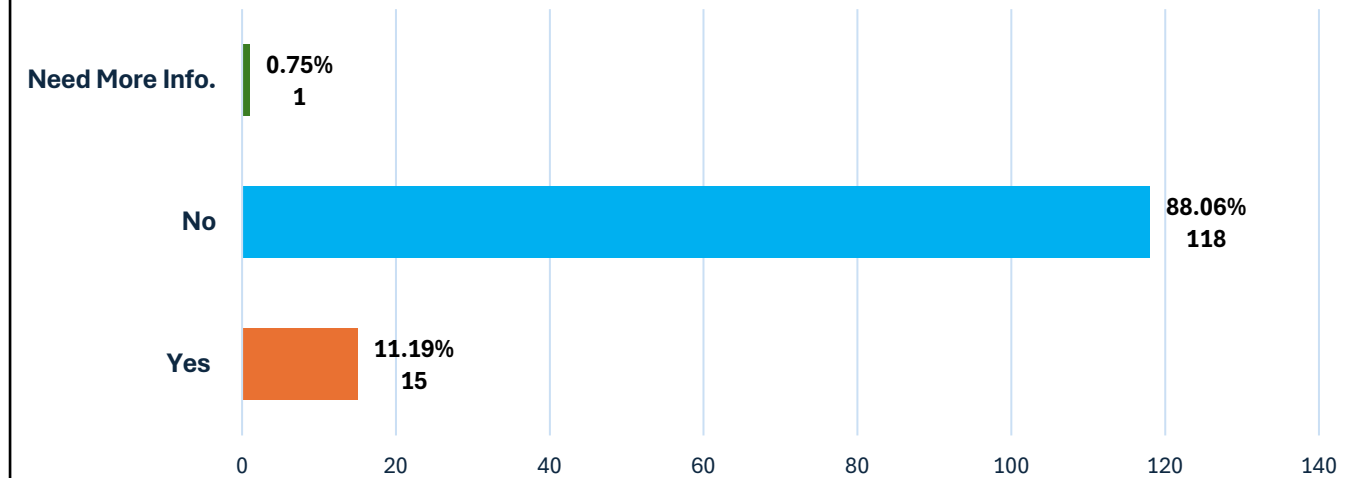

If You LIVE ON A Paved Road

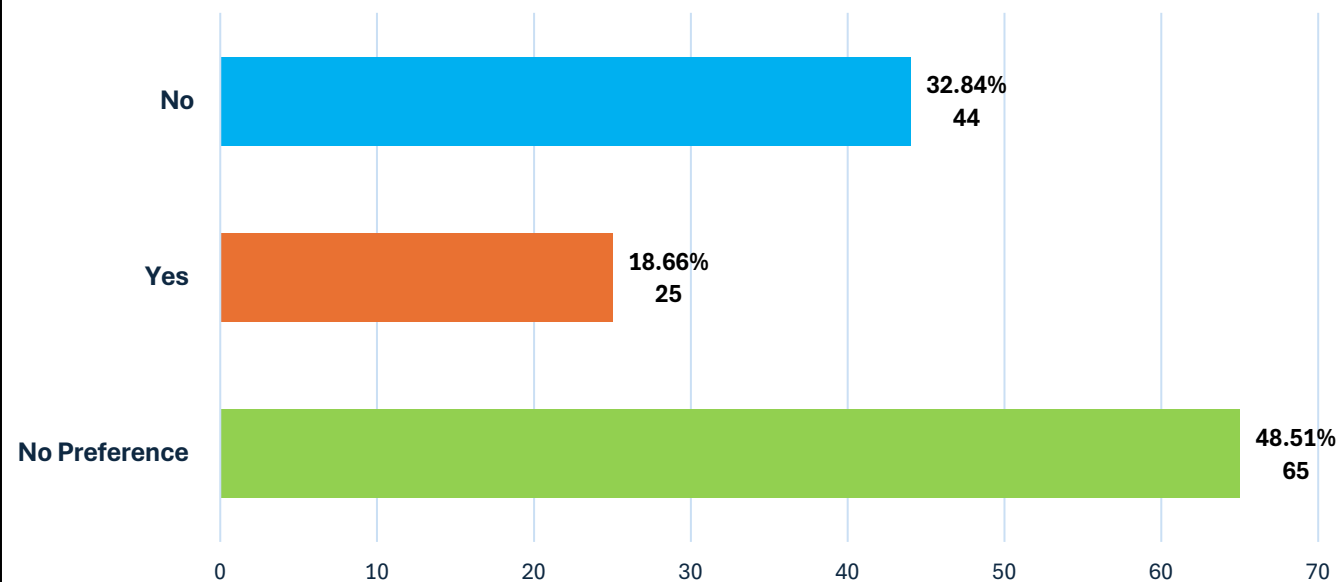

Do you currently live on a paved Road?

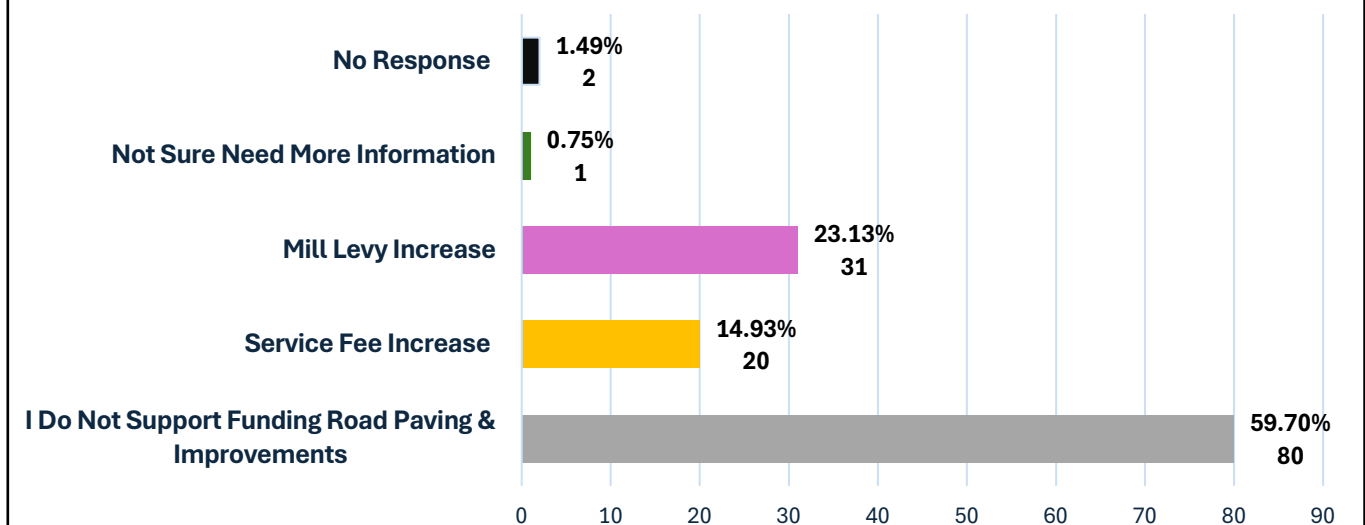

Would you support new pavement on all unpaved roads AND improvements on existing paved roads by increasing your fees approximately \$800.00 more a year?

Would you like all CB South roads within District boundaries to be paved?

Would you support funding road paving and improvements through a service fee or mill levy increase?
